

How to Select the Right Data and Analytics Service Provider?

Jorgen Heizenberg
@jheizenb

A vertical rope with a series of red floats and one blue float at the top is positioned in the center of the frame. The rope is set against a background of clear, rippling blue water. The text "Being Good Is Not Good Enough" is overlaid in white, bold, sans-serif font across the middle of the image.

Being Good Is Not Good Enough

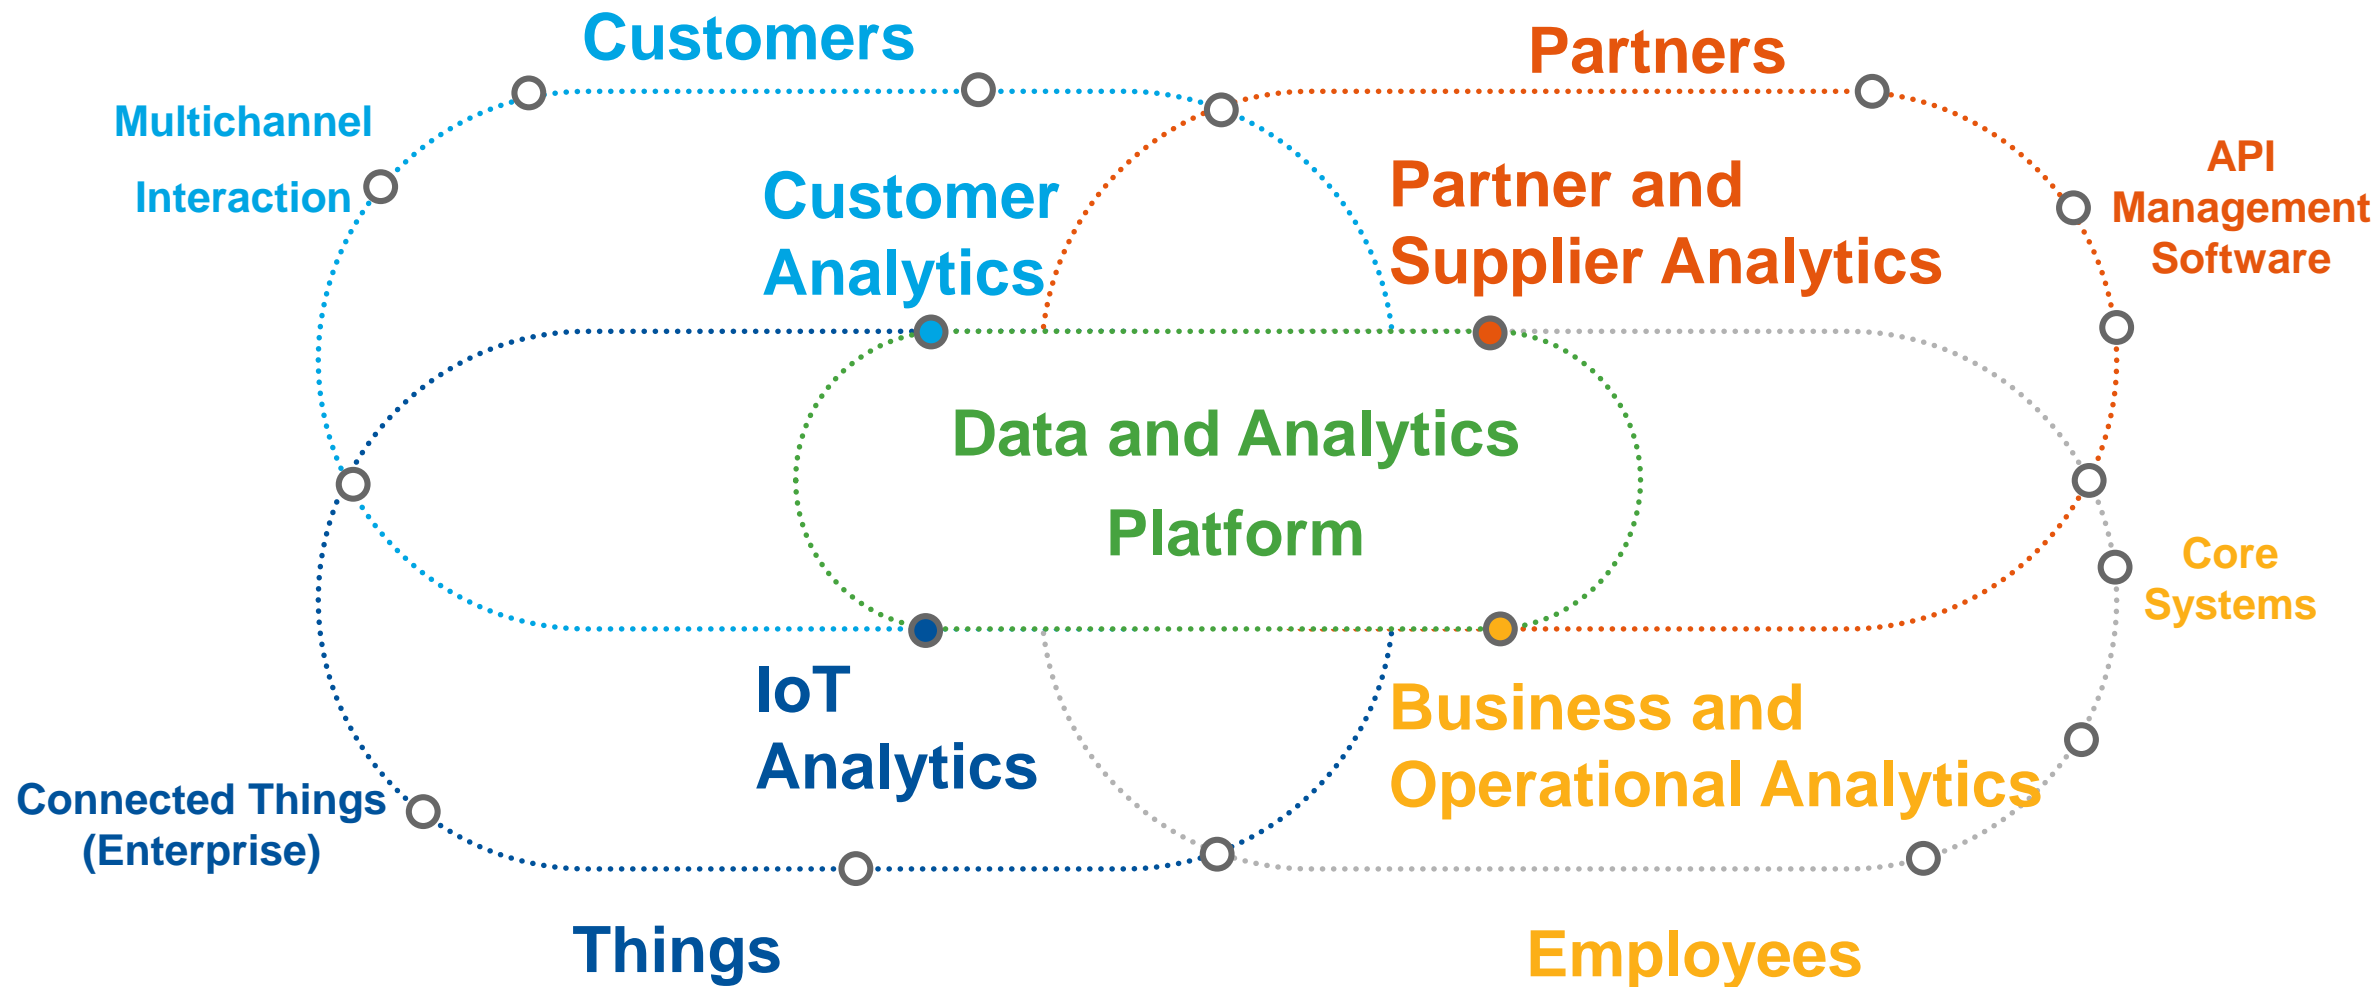

Data and Analytics Is Applied for Many Business Problems

What are the top three business problems your organization is using data and analytics to address?

Base: n = 192 Gartner Research Circle Members/External Sample
Q. Rank the top three business problems your organization is using data and analytics to address. Up to 3 responses allowed.

Digital Business Requires a Technology Platform

Disruptive Technologies Approach a Tipping Point

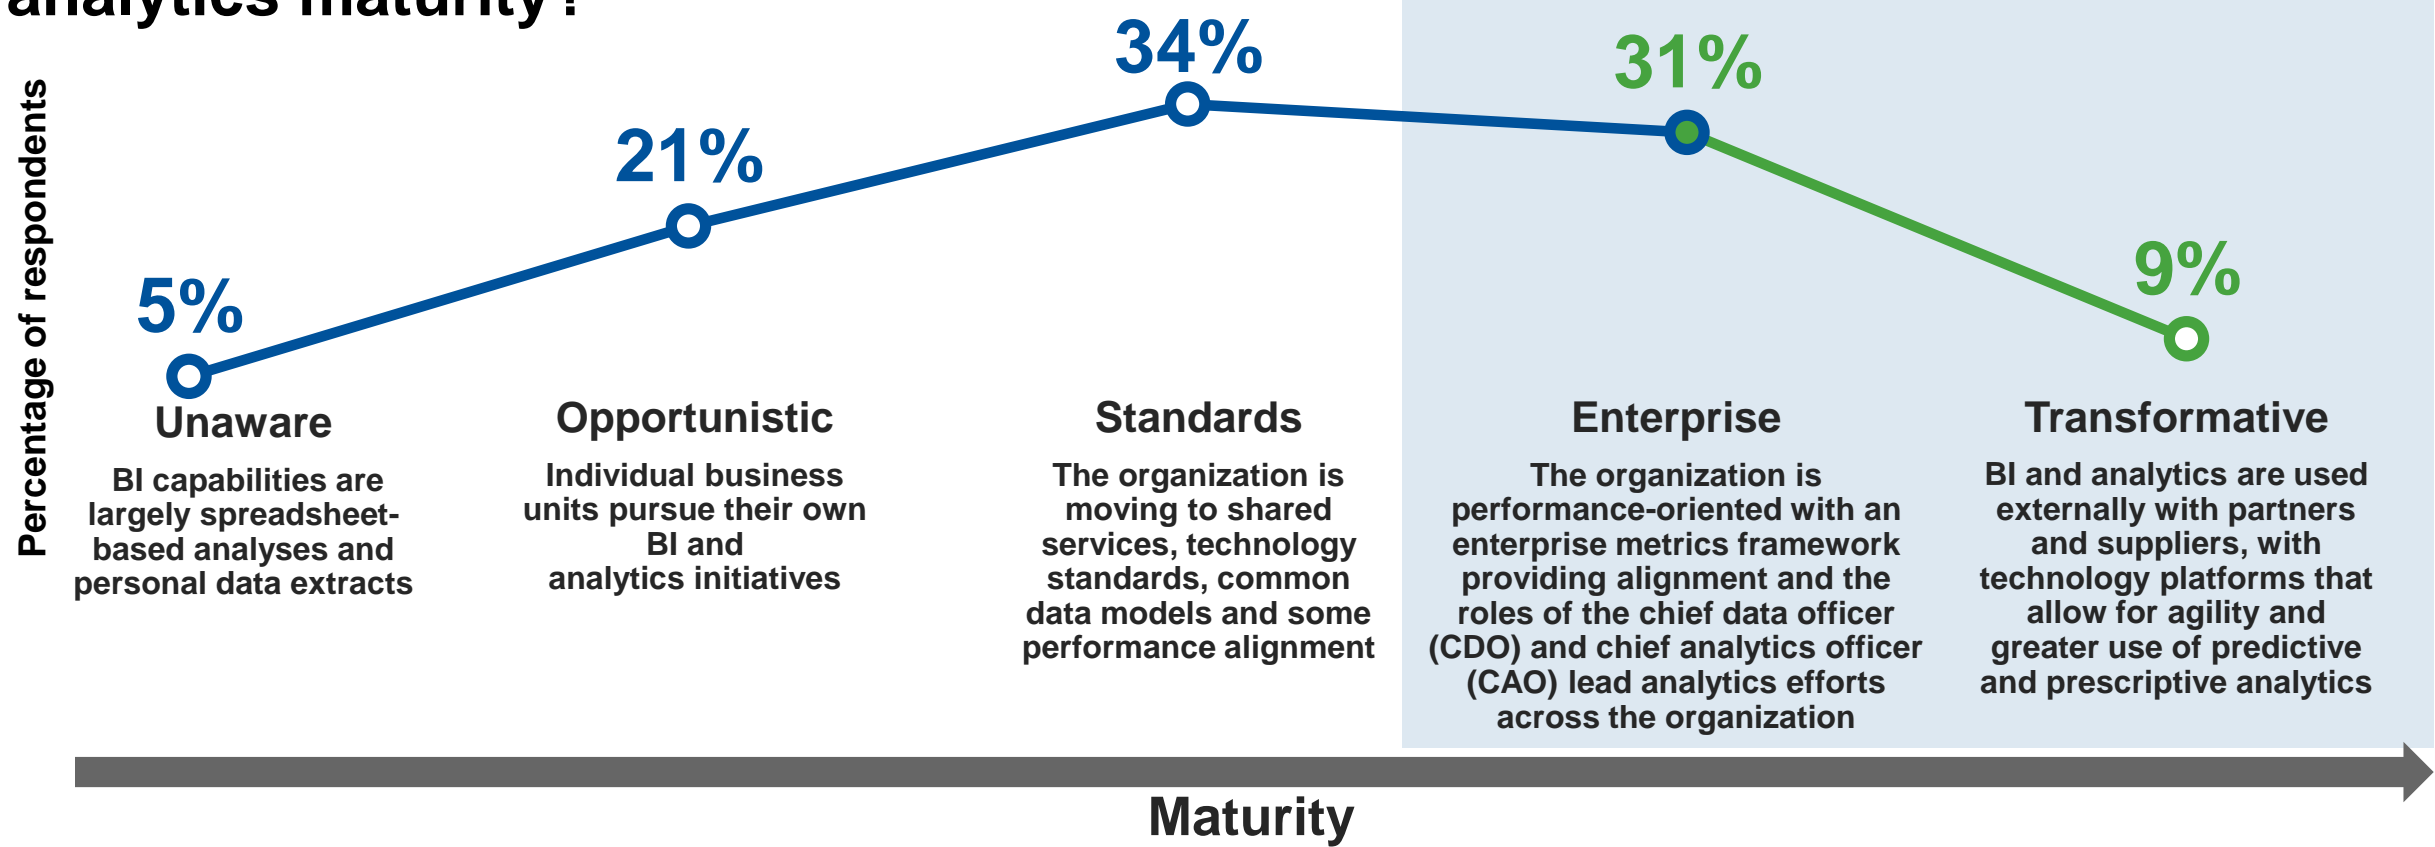

Percent of Respondents That Have Deployed a Technology or Are in Short-Term Planning for Deployment

What are your organization's plans in terms of the following digital technologies and trends? Percent of respondents that have deployed or are in short-term planning. (2018) n = 3,138 — 2015 data adapted from 2015 CIO Survey

Most Organizations Score Relatively Low on Data and Analytics Maturity

Which of these best describes your organization's level of data and analytics maturity?

Base: n = 191 Gartner Research Circle Members/External Sample. Excludes 'Don't Know'
Q. Which of these best describes your organization's level of data and analytics maturity?

Different Organizations Experience Different Issues With Data and Analytics

What are your organization's top 3 hurdles or challenges with using data and analytics?

% Ranked among top 3
Percentage of respondents

Base: n = 191 Gartner Research Circle Members/External Sample. Excluding Don't Know
Q. What are your organization's top 3 hurdles or challenges with using data and analytics? Up to 3 responses allowed.

Organizations Need Data and Analytics Support

Strategic Services:

- Business Consulting
- Industry Expertise

Deployment Services:

- Technical Skills
- Operating Model

Managed Services:

- Outsourced Managed Data and Analytics Services and Solutions

Who Is Using an External Service Provider for D&A?

CDO Survey: Over 90% Is Using External Partners

Use of External Partners by Office of CDO

Base: Full/Partial office of CDO, Excluding Unsure, n = 156; Multiple responses allowed
Q: Which of the following external partners and/or services, if any, does the office of the CDO leverage?

Any Recommendations For Consultancies To Lead A Data Integration & Architecture Project?

25 Apr 2016 09:43 AM

Hi,

We're planning to issue an RFP in the next couple of weeks on data integration and architecture. Being a relatively new BI department, we were wondering if anyone has any recommendations for consultancies (rather than technology providers) who could run the project?

Put simply, the aims of the project are to raise awareness of the data available in the business and to improve the analysis we're able to conduct. Focusing on a proportion of the business, the project will cover:

Using Stores of Data to Improve Forecasting

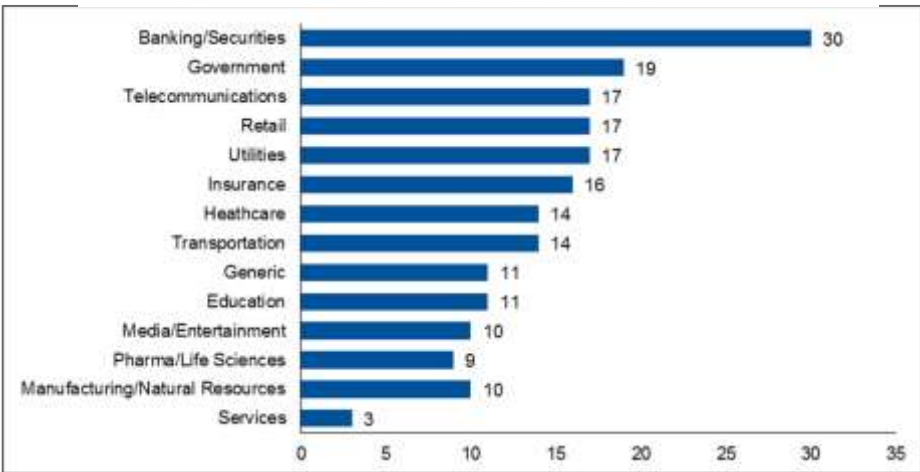

- Opportunity:
 - Improve forecasting accuracy for this \$3.4B Russian electronics and appliances store.
- Data and analytics:
 - 1.5M point-of-sale transactions per month for 420 product groups and sales of 8,000 products from 400 stores.
 - Predictive analytics models using KXEN against data stored in SAP.
- Results:
 - Ability to create 500 predictive models per month.
 - 10% improvement in forecast accuracy leading to improved inventory management, pricing, sales and staffing.

4. Roadmap in business terms
5. Cost-benefit summary
6. Take three immediate next actions

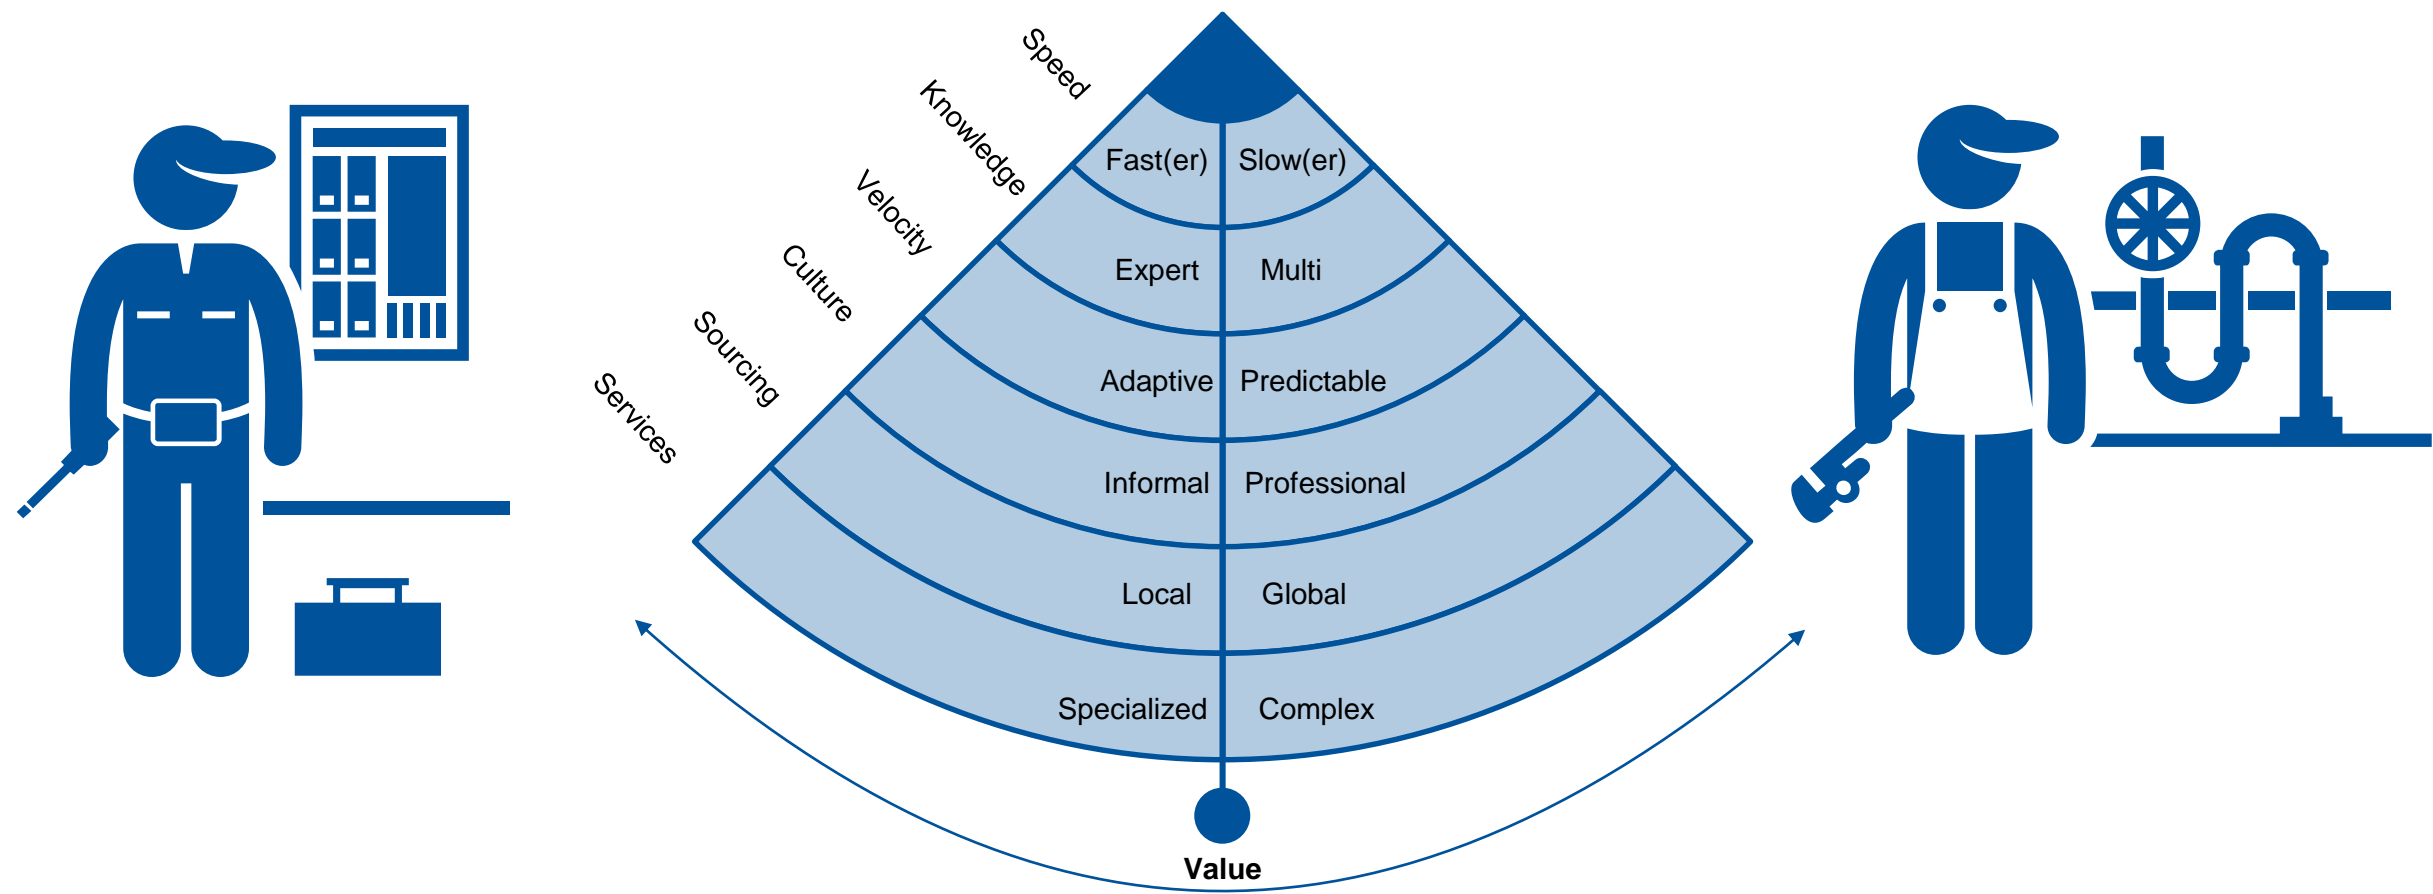

Develop a Sourcing Strategy

	Staff Augmentation	Project-Based Services	Managed Data and Analytics Services
Productivity	Organization's standard of productivity	Resource productivity is outside firm's purview, unless TM pricing is used and payment isn't tied to deliverables	Service levels replace individual productivity metrics
Resource Quality	Ability of resource to do what the firm needs and interact effectively with employees and external resources	People managed by provider; fit of resources is up to the provider, not the organization	Outside organization's purview and control
Work Quality	Organization's standard of work quality	Organization's standard of work quality, ensured or audited by the organization or agent	Organization's standard of work quality defined, ensured, and audited by organization or agent
Process/ Methodology	Defined and directed by the organization	Defined by the organization and performed by provider	Outside firm's control but outcomes must conform to requirements and meet service-level expectations

The Service Provider Equation

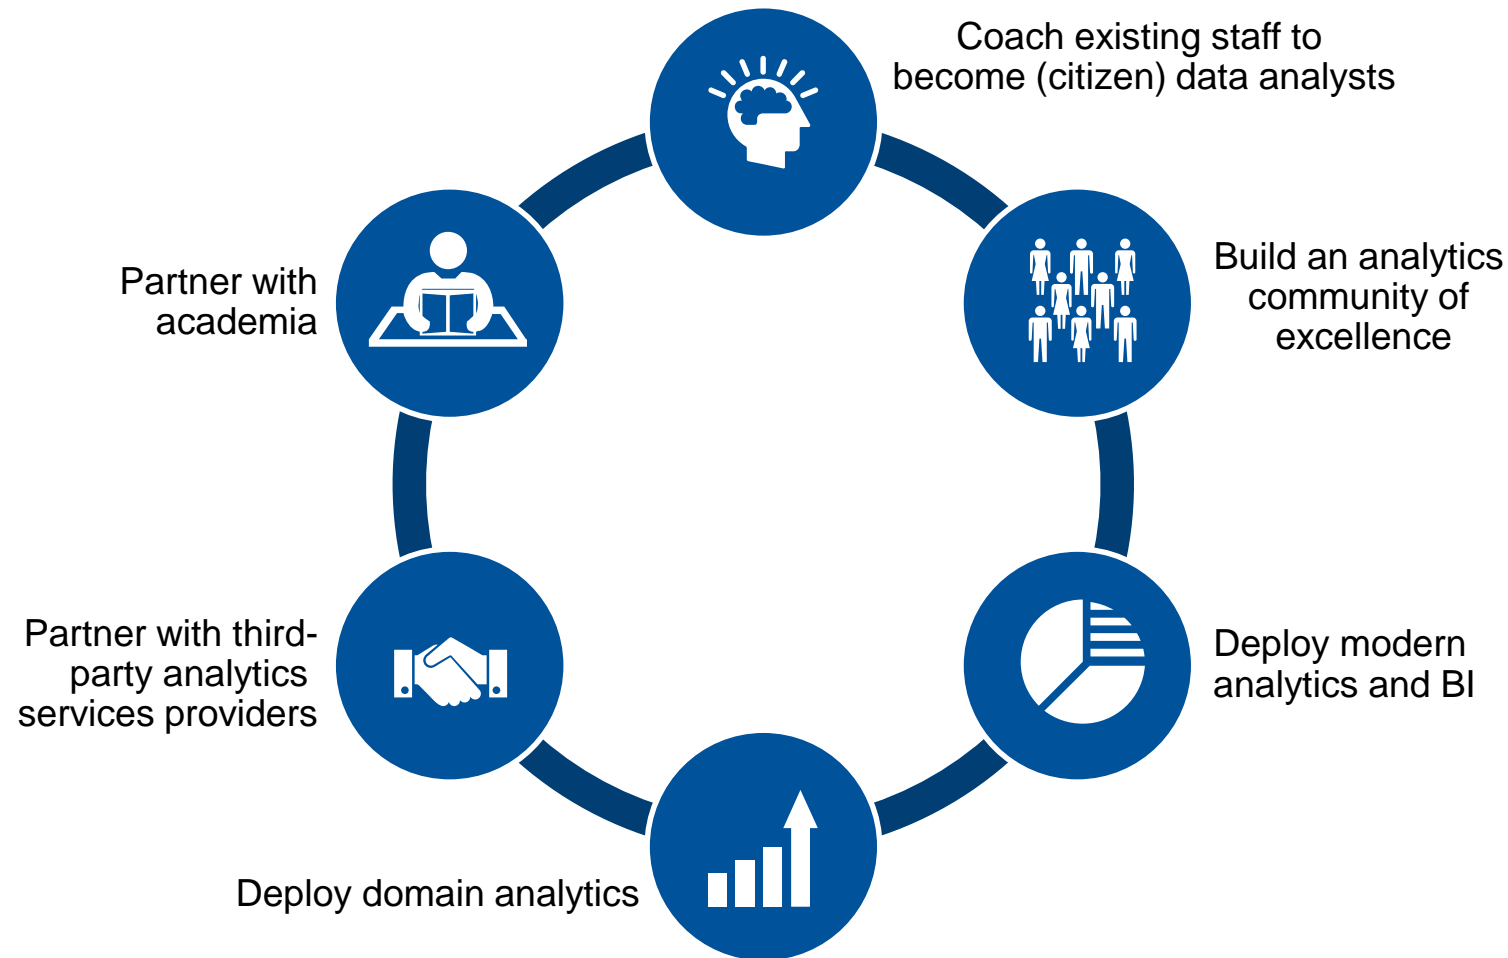

Move From Choice-Based to Option-Based Sourcing

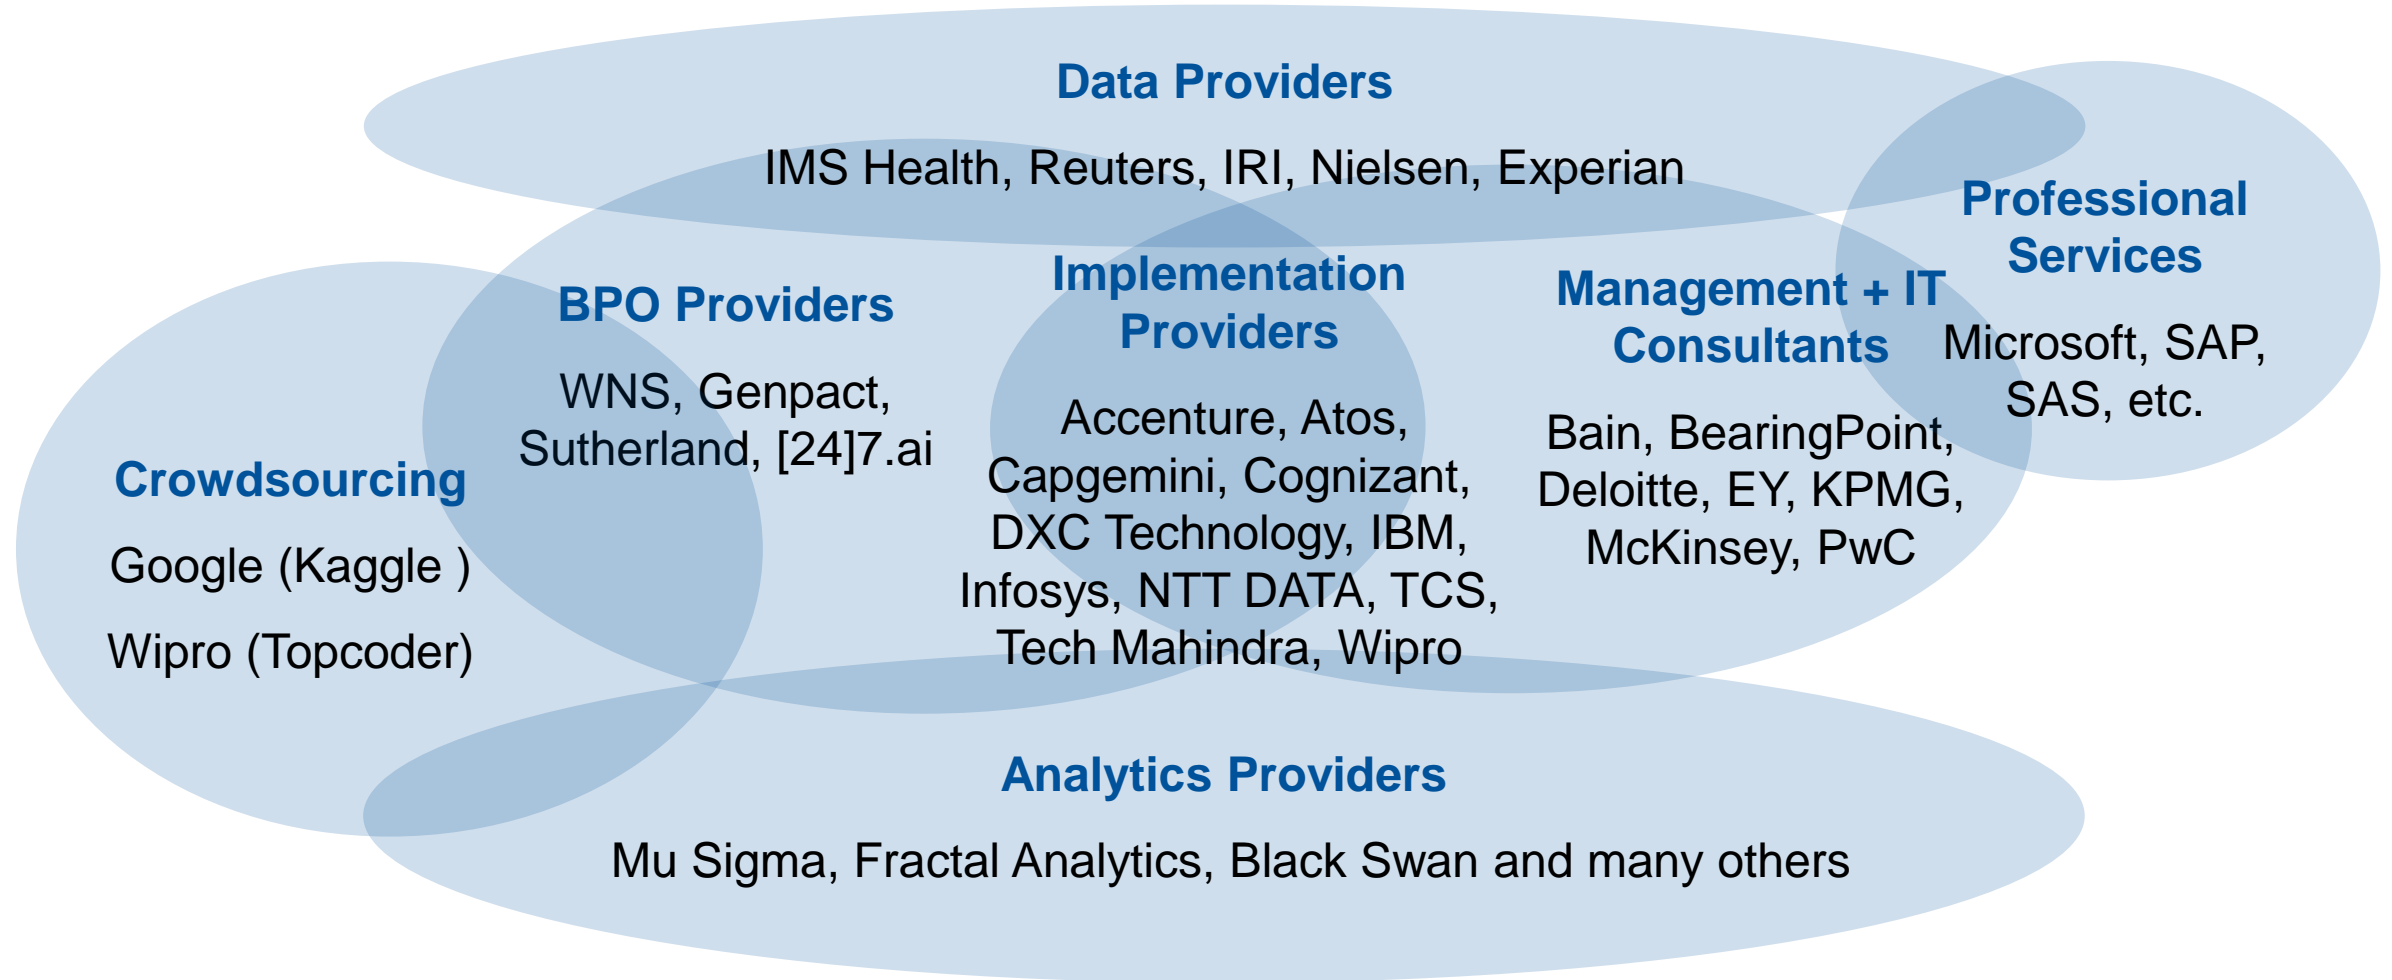

And Choose Services by Focusing on Capabilities

There Are Multiple Alternative Sourcing Options Available

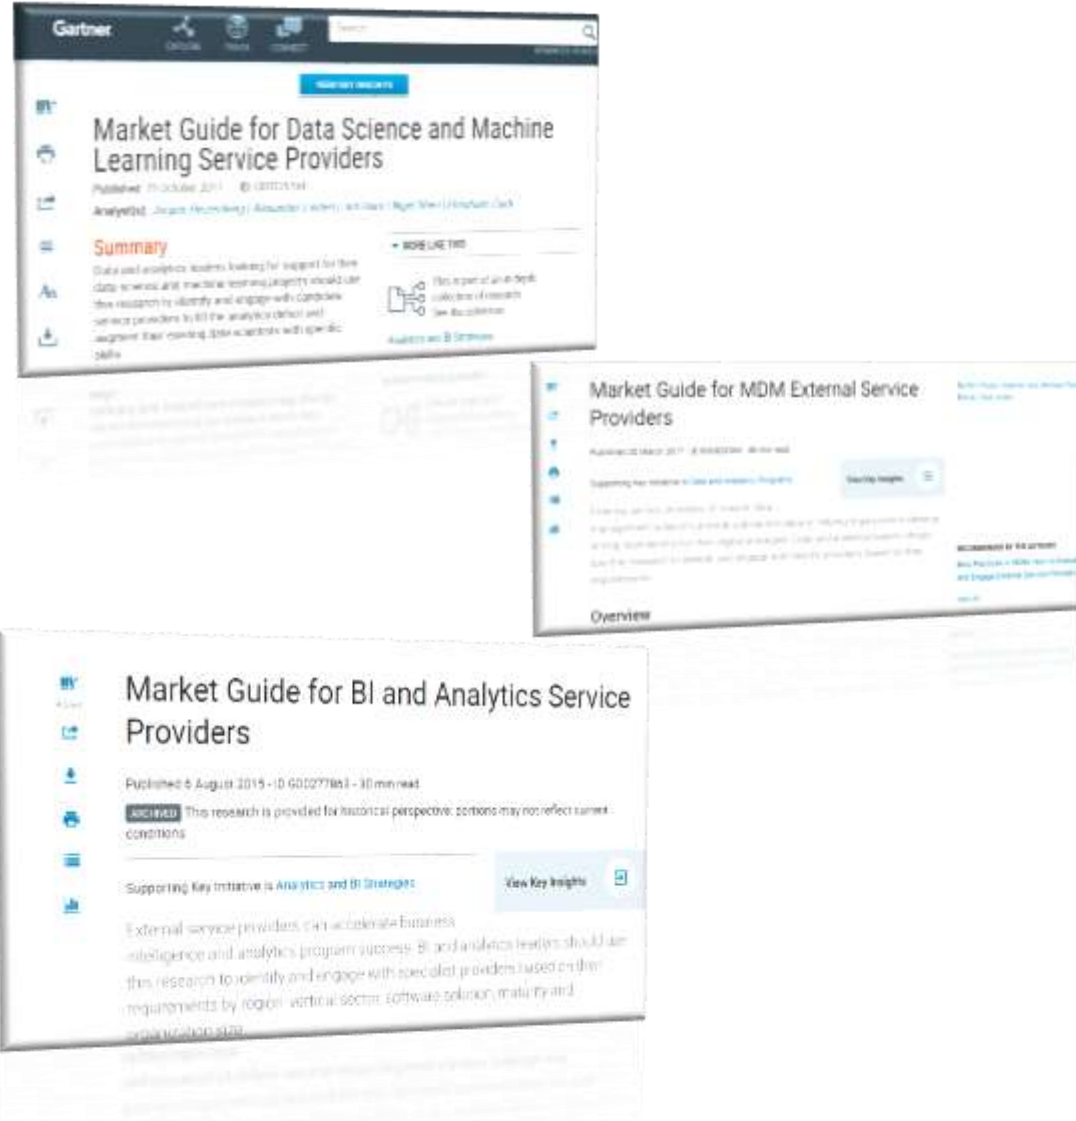

Invest in An Ecosystem of Service Providers

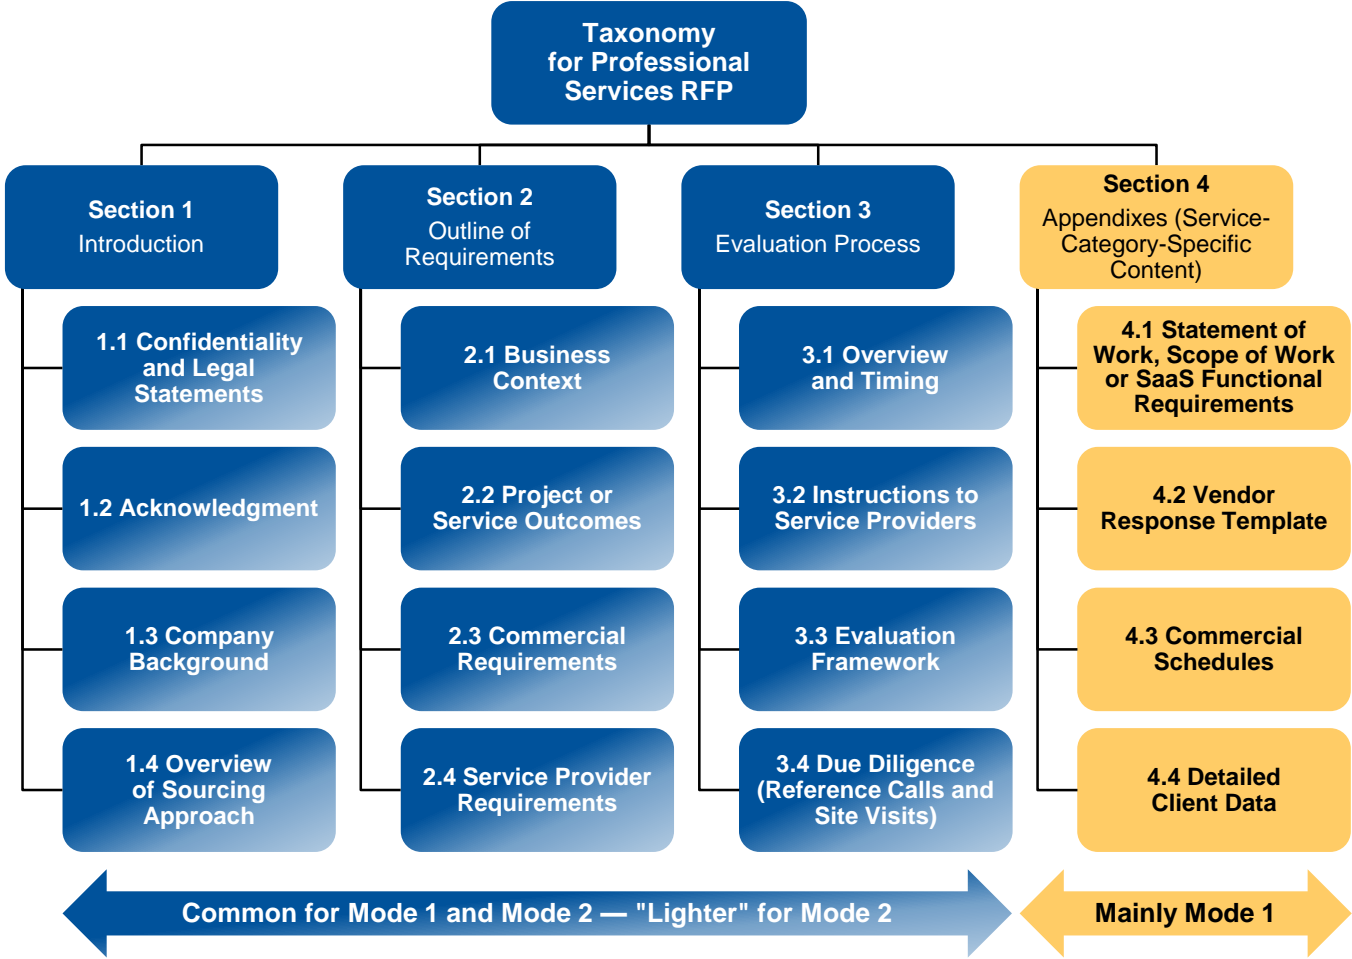

Broad Base of Service Providers Offer Data and Analytics Services

Market Guides and Magic Quadrant for Data and Analytics Service Providers

Send Out a RFP: Avoid Different Expectations

Criteria for Evaluation	Weight (%)	ESP A (0 to 10)	ESP B (0 to 10)
Industry and Process Expertise (Industry models, architects)	20%	5	7
Technology Expertise (Products, tools and templates, partnerships)	20%	9	7
Critical Success Factors (Personnel, solution methodology)	20%	6	8
Project Specific (RFP adherence, price points)	20%	8	8
Vendor Organizational Profile (Cultural fit, contracting practices)	5%	7	7
Reference Checks	15%	6	8
Weighted Average		6.85	7.30

Selection and Disqualification of Service Providers

Top selection criteria mostly strategic or business focused

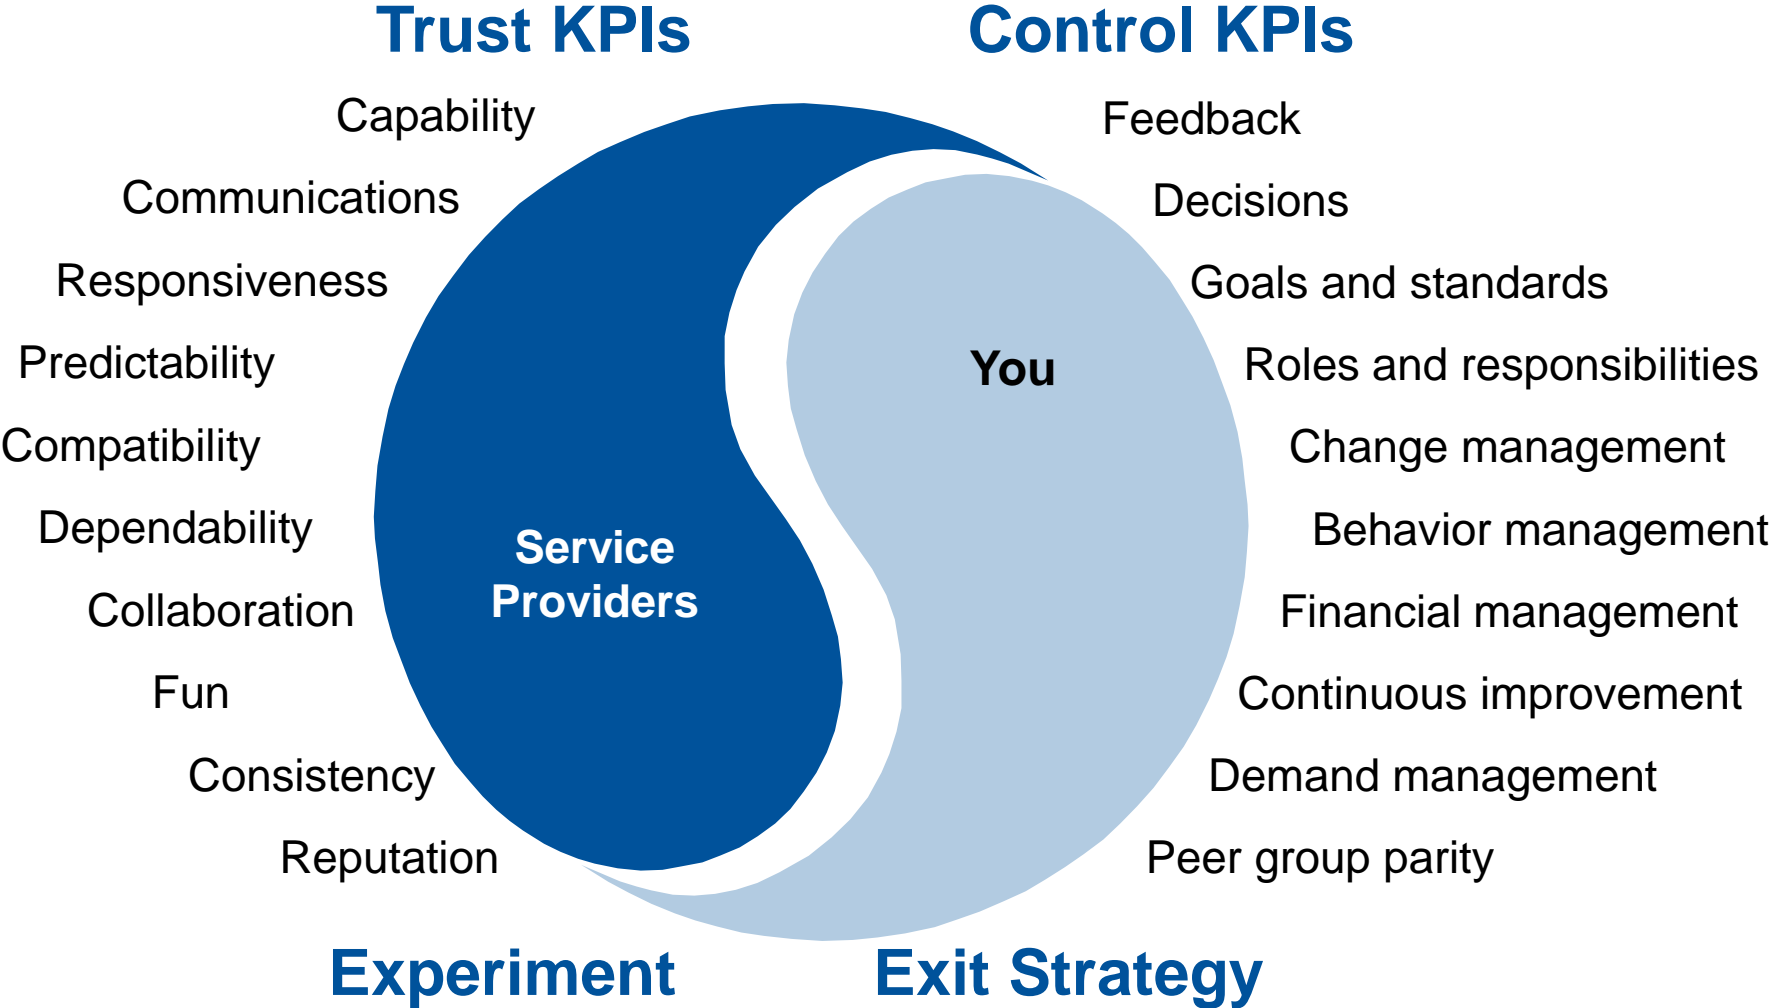

Reasons for disqualifying

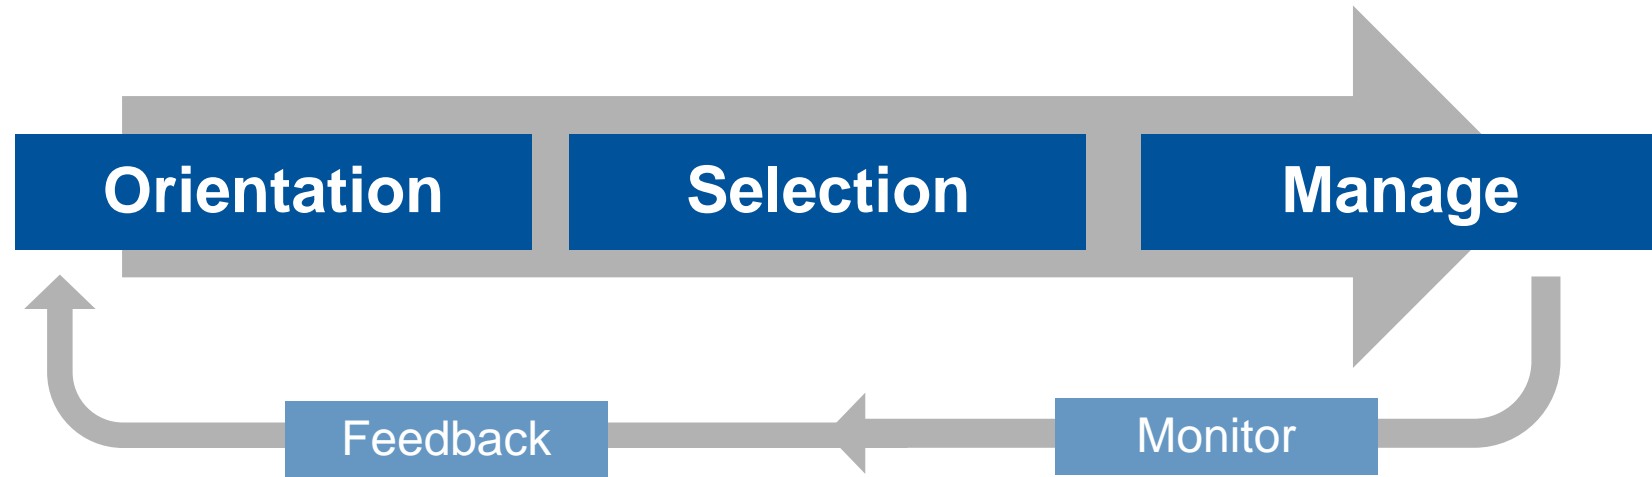

Data collected in July 2016 as part of MQ BAS — n = 231

Create a Vendor Management Ecosystem Framework

In Summary

Orientation:

- External: Peers, inspiration
- Internal: Assessment
- Baseline and set goals
- Identify deficit
- Develop business/belief case

Selection:

- Option based sourcing strategy
- Applicable SP and their solutions
- RFP and evaluation

Manage:

- Vendors
- Control and trust

Recommendations

Short-term:

- ✓ **Rethink** resourcing needs versus changing end-user requirements.
- ✓ **Connect** with current providers for their changing solutions portfolio.

Midterm:

- ✓ **Identify** the analytics project deficits by mapping the initiative's data and analytics
- ✓ **Prioritize** analytic services per project by focusing selection criteria on business use cases and capabilities.
- ✓ **Scan** for additional providers offering alternative skills and solutions.

Long-term:

- ✓ **Identify** operational processes changing data and analytics needs.
- ✓ **Explore** opportunities where potential is untapped.
- ✓ **Manage** an ecosystem of external service providers.
